

NEO

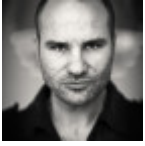

Neo is a range of conference chairs with several different seat shell and base options. The chair is bold in design and gives a feeling of exclusivity with its carefully conceived overall design and attention to detail. In spite of its apparently austere design, its lines are organic, without sharp edges or unnecessary additional features, making it extremely comfortable to sit in. The armrests are beautiful and soft in design and are available in chrome or silver grey powder coating with black soft touch as an option.
